7:00pm-8:30pm

So•lar Meet•up (n.): a gathering open to the public that answers people's questions on adding solar energy systems to their home or business; a place for talking about how solar energy can make Chapel Hill a greener, more sustainable community.

Tuesday, Sept 21, '04

Our first **solar meet-up** will be led by Tom Wills, a local solar installer, and focus on solar water heating as a cost-effective way to incorporate solar technology in your home or business. It will be held at the coffee shop Caffe Driade on E Franklin Street near Bolin Creek.
Caffe Driade
1215a E Franklin St, Chapel Hill

Tuesday, Oct 19, '04

Our second **solar meet-up** will be held at Weaver Street Market in downtown Carrboro and will focus on solar photovoltaic systems. This gathering will be led by Chris Carter, a local entrepreneur at the Solar Village Institute.
Weaver Street Market
101 E Weaver St, Carrboro

Tuesday, Nov 16, '04

Our third **solar meet-up** will focus on passive solar design techniques that can greatly reduce people's energy bills. Come out to learn and share at this gathering at Foster's Market led by architect Alicia Ravetto and builder Paul Konove.
Foster's Market
750 Airport Rd, Chapel Hill
